FOREWORD

The California State Division of Forestry has the primary financial responsibility of preventing and suppressing wildfires upon the following lands within the State of California (excluding those lands owned or controlled by the Federal Government or within the exterior boundaries of incorporated cities):

- (a) Lands covered wholly or in part by forests or by trees producing or capable of producing forest products.
- (b) Lands covered wholly or in part by timber, brush, undergrowth, or grass, whether of commercial value or not, which protect the soil from excessive erosion, retard runoff of water or accelerate water percolation, where such areas are sources of water which is available for irrigation or for domestic or industrial use.
- (c) Lands in areas which are principally used or useful for range or forage purposes which are contiguous to the lands described in sections (a) and (b) above.

Those lands described above are termed State Financial Responsibility Lands. They are also known as Clarke-McNary lands after the Federal law recognizing the National interest in these primary timber and watershed areas. Under the Clarke-McNary Law, the State of California receives reimbursement from the Federal Government on a percentage of State expenditures for protection of these lands. All State Financial Responsibility Lands were accepted as Clarke-McNary qualifying lands effective February 11, 1972.

That portion of those lands described above which are situated generally between the National Forests and the valley floor and which are protected directly by CDF forces or by Contract Counties are also termed "State Zone".

Those valley floor lands in which there is no State or Federal interest in timber, watershed, range, or erosion are the fire protection responsibility of local agencies and are known as "Local Zone".

The State of California contracts with the United States Forest Service and with the five "Contract Counties" (Kern, Los Angeles, Marin, Santa Barbara and Ventura) for the fire protection of State Financial Responsibility Lands located within their protection boundaries. In turn, certain Federal agencies--Bureau of Land Management, Bureau of Indian Affairs, Bureau of Reclamation, and United States Forest Service--contract to the State the fire protection of those Federal lands which are intermingled with the State Financial Responsibility Lands within the State Zone.

The State Division of Forestry also contracts with counties for Local Zone protection where the State is already protecting mountain areas and is established in the fire protection business. Through these contracts, the State does the entire protection job and is reimbursed by the county concerned for the effort expended on Local Zone land.

Except where specifically noted, the tabulations in this book are derived from reportable action on wildfires occurring on State Zone and Local Zone areas directly protected by the Division of Forestry.

Not reported here are fires upon lands protected by other agencies such as the United States Forest Service, Bureau of Indian Affairs, fire districts and city and other fire departments, except as noted.

Fire suppression action by State crews on these lands is shown. Action by these agencies upon State direct protection lands is also shown.

CALIFORNIA DIVISION OF FORESTRY
DIRECT PROTECTION JURISDICTION
December 31, 1972

	<u>STATE ZONE</u> (Acres)	<u>LOCAL ZONE</u> (Acres)
DISTRICT I	6,382,068	181,664
DISTRICT II	6,703,547	710,671
DISTRICT IV	4,828,191	3,088,763
DISTRICT V	5,942,469	353,214
DISTRICT VI	<u>4,263,709</u>	<u>977,032</u>
STATEWIDE TOTAL	28,119,984	5,311,344

STATE ZONE: Generally speaking, this is the gross land area between Local Zone and the USFS-CDF pay protection boundary line, including intermingled Federal lands (with the exception of Military). In counties where National Forests are absent, the acreage figures are the gross State Zone areas, including intermingled Federal lands.

LOCAL ZONE: Generally speaking this is the gross agricultural and rural valley floor land area lying below the State Zone in counties which have rural fire protection agreements with the Division of Forestry, exclusive of Federally owned lands in these areas.

NOTE: The protection areas shown in the 1972 Red Book include changes made during the 1970 Rezoning Project and also changes made as the result of adjusting protection areas and boundaries with the U.S. Forest Service in northeastern California.

The change in terminology from the previous "Zone I and II" to "State Zone"; and from "Zone III" to "Local Zone" was effective January 1, 1972. All State Financial Responsibility Lands were accepted as Clarke-McNary qualifying lands effective February 11, 1972.
